Seagwick is able and popular, and dinner tables. would prove a strong candidate.

Dower Chests of Olden Days. In Holland the dower chest once formed a part of every bride's equipment. Less portable, but more sightly than the "Saratoga" trunk, it fulfilled its purpose with grace and dignity, passing down as an heirloom from generation to generation. The modern chest is an easy thing to secure, but these the un-to-date girl holds in disdain: her chest must be really antique, of carved oak, of English or Flemish make, or elaborately inlaid with marqueterie of colored woods and dated or queterie of colored woods and dated or initialled with figures and characters eloquent of other times and manners. There are very few of the genuine old-fashioned "dower chests" to be seen on this side of the Atlantic. One of them in this city is a very massive affair, weighing several hundred pounds.— Buffalo Commercial.

A PNEUMATIC tube is in use between the Paris and Berlin postoffices, and thirty-five minutes after a letter is mailed in one city it is delivered in the A LILLIPUTIAN STRUCTURE.

portly to get in and out of the front door, gave up the house and removed to New Jersey. Since then no one small enough could be found who was willing to lease the house at any price, and so it has been turned over to the dairyman next door, who has cut an entrance into it from his store. The property is entered on the tax-collector's book, and has to bear its share of the city's burden just like the most palatial houses in the metropolis.

Dying of Consumption. Reports from St. Petersburg say that there is now little hope that the Grand Duke George, second son of the Czar, will ever get well. The Prince has been in the Caucasus for several years

Building in New York the Width of Which is Only 34 Inches.

There is a house in New York the extreme width of which is only 34 inches. It is between Nos. 162 and 164 86th street. Its existence is the result of accident, the surveyor of the adjoining lot leaving a vacancy of about three feet which the owner used by erecting this lilliputian structure. A tenant was found in the person of Otto Werner, who for some years kept a grocery store there and lived on the floors above. He did a good business, but in the course of time becoming too portly to get in and out of the front ortly to get in and out of the front

mond was resting easy and was improvement of the twelve carrier stations of Chicago with the general office at Clark and Adams streets. The stations to be connected by pneumatic tubes are as follows: Madison Street, Cottage Grove, Hyde Park, Lake View, West Division, North Division, North Division, North Division, Northwest, South Division, Southwest, South Chicago, Stock Yards, and the Humboldt Park Stations. The distance to be covered by the tubes of the proposed system is about thirty-three and one-tenth miles, and the cost, it is estimated, would be \$886,-151. This estimated includes machines, wages, and everything else required.

More than 179,000 feet of steel tubing mond was resting easy and was improving as rapidly as could be expected.

Mr. P. H. Rice, the well-known brewer and maltster, is prominently mentioned as a candidate for County Treasurer.

Mcssrs, W. C. Reeble & Bro., proprietors of the great storage warehouse corner of Sheffield and Wright wood avenues, are well known to the largest in their line in the West. At present they are erecting another large building on their premises, and also have nearly completed three of the largest "moving vans" used in this country.

More than 179,000 feet of steel tubing

Fable of the Adaptable Playwright.

Pable of the Adaptable Playwright.
Once upon a time a morose tragedian, distinguished mainly for his elaborate regard of himself, discovered that his hearers considered his Hamlet hilarious and his Lear grotesquely robust.

"Miserable coquette!" he cried to the faithless providence about to desert him, "what a calamity!"

"Nay," replied that perverse entity, "not a calamity—an opportunity."

As flexible as the lady was ambiguous, the star in time adjusted himself to the suggestion, and by morbid execution and grewsome emphasis waxed renowned and rich in the domain of burlesque and extravaganza.

Moral—Its a wise frog that knows its own bellow.—Lippincott's Magazine.

The Telephone for Divers. The telephone is now used by deep water divers. A receiver and transmitter combined is affixed to the inside of the helmet near the diver's ear. By a slight turn of his head he can speak into the telephone and he can hear readily from it at all times. Its value in deep-sea work, for reporting prog-ress or receiving instructions, is clear. Formerly the only communi-cation was by a system of pulls at a cord.

FREE EXCURSION TO PERRIS, LOS ANGELES

Hon. J. W. Names of Perr's, Riverside County, Ca'., is the owner of a large tract of land at Perris, all level and smooth; water under pressure; depot in center of tract. To settle up the country he has authorized us to offer 1.00 acres of his land at #15 an acre and pay each purchaser's expenses to California out of first payment.

Gives lu acres free to the excursion party, to be awarded as it designates, air. Nance will be at our office until excursion leaves for California, about April 7.
